of ST. JOHN the DIVINE New York City*

CATHEDRAL OF ST. JOHN THE DIVINE AS IT WILL LOOK FROM THE NORTH.

"Nothing comparable to this superb design has ever been executed or conceived in America, and the Cathedrals of Europe may fairly be challenged to surpass or even to equal it."—ALFRED D. F. HAMLIN, *Professor of Architecture, Columbia University.*

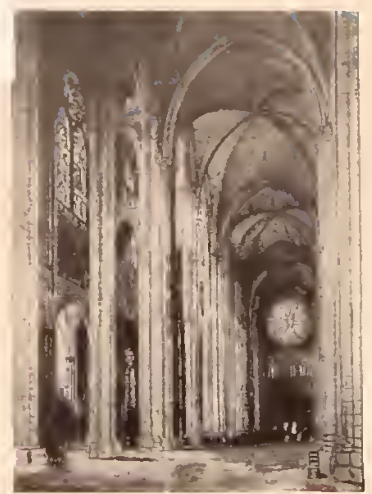

SEYMOUR DURST

NEW YORK'S UNFINISHED CATHEDRAL

London has St. Paul's Cathedral
Paris has Notre Dame
New York has the Cathedral of
St. John the Divine

Antoinette B. Hervey
The portion of the Cathedral of
St. John the Divine already
completed.

The completed building will seat
10,000, and allow standing
room for 40,000.

AS a civic undertaking, the completion of our Metropolitan Cathedral far overshadows any present movement. Like the famous old cathedrals it will be one of the world's treasure houses and shrines a thousand years after most of the enterprises now before the public eye are forgotten.

THE charter of the Cathedral of St. John the Divine on Morningside Heights was obtained 50 years ago. During that time we have erected great temples to commerce and transportation, art and education—the Pennsylvania Station, the Metropolitan Museum, the Public Library, the Woolworth Building—and now we are to have in our new-world Cathedral a temple of religion more beautiful and majestic than any of these.

IN nobility and beauty it will equal any of the old-world cathedrals. It will be by far the largest cathedral in any land where English is spoken. Only two cathedrals in the world will surpass it in size.

NEW YORK'S great Cathedral will always be a Cathedral of the people. Just as Rheims Cathedral and Westminster Abbey belong to the people of every land, so the Cathedral of St. John the Divine belongs to everybody, rich and poor alike.

ALREADY men and women of all churches and of no church at all meet in the Cathedral. People from every state and from lands across the seas gather there to hear representatives of the best thought of the age and great men of God from the four corners of the earth. At such civic services as the Harding Memorial service held in the unfinished Cathedral, literally thousands have to be turned away for lack of room.

THE cost of building a modern battleship is about thirty-five million dollars. It will cost less than half that to complete New York's great Cathedral. A battleship lasts ten years. The Cathedral will stand twenty centuries—an enduring monument of our common belief in the brotherhood of man and one God over all.

IF the funds are collected the Cathedral can be completed within a reasonable time. The gifts of many people of all ages and conditions of worldly goods have built the part now standing. Thousands more of such gifts are needed now to complete the work.

NOT every generation has the privilege of living while a world cathedral is being built. We have not only that privilege but the chance actually to help to build it.

Help Complete New York's Great Cathedral

CITIZENS' COMMITTEE FOR COMPLETING THE CATHEDRAL OF ST. JOHN THE DIVINE

Rt. Rev. William T. Manning, Bishop of New York, *Honorary Chairman*

The Honorable Franklin D. Roosevelt, *National Chairman*

The Honorable Elihu Root, *Chairman*
The Honorable George W.ickersham, *Vice-Chairman*

THE CATHEDRAL

AMERICA'S OUTSTANDING
ARTISTIC CONTRIBUTION
TO THIS CENTURY

"WE may live without architecture and worship without her, but we cannot remember without her. How cold is all history, how lifeless all imagery compared with that which the living nation writes and the uncorrupted marble bears. There are but two strong conquerors of the forgetfulness of men, Poetry and Architecture; and the latter in some sort includes the former, and is mightier in its reality. It is well to have, not only what men have thought and felt, but what their hands have handled and their strength wrought and their eyes beheld, all the days of their life."—RUSKIN.
